Space Flight is a 4D experience the whole family will enjoy. Experience the passing of time from the Big Bang all the way to the rise of civilization and beyond. The movie takes riders on an incredible journey through time from the start of the universe with the Big Bang, almost 14 billion years ago; to the creation of the stars, planets, and galaxies; to life on Earth from the earliest lifeforms to dinosaurs, wooly mammoths, and eventually humans. Ultimately, you'll see what we've been able to achieve during our cosmically brief 2 million years of existence.

Features Wind, Water, and Scent effects to give the most advance fly-ride immersion.
